As a Tester and Junior Front End Developer with 2+ years of experience working with React.js, I have a strong foundation in JavaScript, HTML, and CSS, and a solid understanding of React's key principles.

In addition to my professional experience, I have completed several courses related to React, which have further developed my skills and knowledge in the field.

I am skilled in collaborating with cross-functional teams, including clients, testers, and back-end developers, to deliver high-quality web applications that meet the needs of end users. I am well-versed in Agile methodologies, having worked on projects that have followed Scrum and Kanban frameworks.

Skills

HTML, CSS, Bootstrap, Javascript, TypeScript, React JS, XML, and JSON.
GitHub, SQL, AWS, Slack, Jira, Microsoft Teams, and Visual Studio Code.

Experience

Capgemini / Software Developer In Test

Oct 2019 - Present

- Front-End Debugging and Issue Resolution: Utilized browser developer tools and debugging techniques to identify and troubleshoot front-end issues, including JavaScript errors, and browser compatibility problems. Collaborated with development teams to resolve issues promptly and ensure a seamless user experience.
- Endpoint Testing: Developed and executed comprehensive test suites using Postman to validate the functionality and behavior of various endpoints. Utilized GET and POST methods to send requests and verify the expected responses, ensuring that the APIs functioned correctly and met the defined requirements.
- AWS Integration: Leveraged AWS services, specifically Amazon S3 and AWS Batch, to support testing activities. Utilized Amazon S3 for secure storage and retrieval of test data, while AWS Batch facilitated parallelized and scalable batch processing for efficient test execution.
- Documentation and Reporting: Prepared clear and concise documentation, including test plans, test cases, and test execution reports.
- Continuous Learning and Skill Development: Stayed updated with the latest front-end technologies, frameworks, and testing practices.

Asset Mapping/ Web Application Specialist

Nov 2018 - Jun 2019 • 8 mon, London

- **Project Management:** Successfully managed multiple web application projects from inception to completion, ensuring adherence to timelines, budgets, and quality standards. Collaborated with cross-functional teams, including designers, developers, and stakeholders, to drive project success and deliver exceptional results.
- **Training and Support:** Provided comprehensive training and support to clients on web application usage, functionality, and best practices. Developed user guides, documentation, and training materials to facilitate smooth adoption and maximize the value derived from web applications.
- **Web Application Development:** Demonstrated expertise in developing high-quality web applications tailored to meet specific client requirements. Utilized a diverse range of technologies, such as HTML, CSS, JavaScript

CBS Interactive / Technical Solutions Engineer

Mar 2017 - Nov 2018 • 1 yr 9 mon, London

- **Technical Support:** Provided effective technical support to clients, addressing their queries, troubleshooting issues, and ensuring timely resolution.
- **Solution Development:** Collaborated with front-end dev teams to design and develop innovative technical solutions tailored to meet client requirements.
- **Documentation and Knowledge Sharing:** Developed comprehensive technical documentation, including user guides, FAQs, and best practices, to facilitate ease of use and troubleshooting.
